

Biology And Ecology Of Norway Spruce

[DOWNLOAD HERE](#)

1. Paleorecord of Norway spruce; A. Srodon, K. Tobolski.- 2. Morphology; T. Przybylski.- 3. Taxonomy; W. Bugala.- 4. Geographic distribution; K. Boratynska.- 5. The Central European disjunctions in the range of Norway Spruce; A. Boratynski.- 6. Anatomy, embryology, and karyology. Bud structure and shoot development; A. Hejnowicz.- 7. Growth and nutrition. 7.1. Hormonal regulation of growth and development; S. Pukacka. 7.2. Mineral nutrition; H. Fober.- 8. Reproduction. 8.1. Reproductive development; W. Chalupka. 8.2. Vegetative propagation; W. Barzdajn.- 9. Genetics. 9.1. Provenance variation and inheritance; M. Giertych. 9.2. Biochemical genetics; L. Mejnartowicz, A. Lewandowski.- 10. Mycorrhiza. 10.1. The mycorrhizal status of Norway spruce; M.L. Rudawska. 10.2. Ectomycorrhizal symbiosis and environmental stresses; B. Kieliszewska-Rokicka.- 11. Outline of ecology. 11.1. Ecology; J. Modrzynski. 11.2. Community dynamics of Norway spruce; W. Danielewicz, P. Pawlaczyk.- 12. Tree health. 12.1. Major infectious diseases; M. Manka. 12.2. Bark beetles; J. Michalski.- 13. Silviculture of Norway Spruce; S. Szymanski.- 14. Norway spruce function in polluted environments. 14.1. Sensitivity to environmental pollution; P. Karolewski. 14.2. Effects of pollutants on needle and wood anatomy; A. Werner.- 15. Wood properties and uses; J. Surminski.- References.- Authors Index.- Index of Names of Organisms.- Subject Index.- EAN/ISBN : 9781402048418 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Tjoelker, Mark G. - Boratynski, Adam - Bugala, Wladyslaw
