

Boat Yacht Sail Flap Rigging Clunk #2 (sfx Sound Effect Wav)

[DOWNLOAD HERE](#)

This file was recorded upon a 32' racing yacht and captures the sound of the sail being pulled out of its storage bag. There is also rigging clunking in the background. It could also be used for the sound on a dinghy or small boat. There is the sound of the bilge pump being use on 2 occasions to remove excess water. See also file 'Boat Yacht Sail Flap Rigging Clunk #1' All files on sale by Sevenleaf SFX have been recorded by professionals and are available for you to download as 16 bit 48kHz stereo wav files.

Previews are low quality mp3 files with security watermark beeps. Purchased files are broadcast quality wavs without watermarking.
