

Mp3 Alexis Booth - Begin

[DOWNLOAD HERE](#)

R&B-infused rock with jazz undertones - and a powerhouse vocalize that falls somewhere between Aretha, Alicia, and a unseasoned Fair Raitt. 9 MP3 Songs URBAN/R&B: R&B Pop Crossover, POP: with Live-band Production Begin Songs Details: BIO Alexis Booth makes a dominating statement with her debut album Get down telltale a vocalize that resonates with power and soul. Recorded in a single day by renowned engineer Jon Kaplan (Jennifer Lopez, Gavin DeGraw, 'NSYNC), this self-written, self-produced album captures the raw, honest power of Alexis' live performance and bears semblance on many levels to a unseasoned Aretha Franklin or Fair Raitt. Although Begin marks Alexis' first solo album release, it is by no means the start of her musical career. Classically trained from a unseasoned age on piano, trumpet, and French horn, she has spent years refining her vocalize as an instrument. Her vocals rise above melodies and verses to convey tangible emotion and feeling, while the poetry of her lyrics, coupled with her inherent sense of melody, elevate sentiment to imagery and prove Alexis transcendental beyond her years. Alexis' first foray into the creative aspect of making music took her deep into the heart of jazz. There she developed a knack for improvisation, along with a soulful sound that turned heads. Her talents were lauded early on by eminent jazz publication Downbeat Magazine, who presented her the award of "Best Jazz Vocalist" - the same honor received by Norah Jones the previous year. While at college, she joined a nationally recognized, self-directed a cappella group where she flexed her creative muscles and arranged inventive choral orchestrations of songs she heard on the radio. Alexis later moved to New York City to take advantage of its wealth of musical opportunities. Immersing herself in the city's rich singer/songwriter scene, Alexis allowed herself the space to develop as a writer and a solo performer. Drawing upon the grace and artistry of contemporaries and legends alike, she has learned to speak from the heart about her own life and experiences - with the vocalize of a diva and the words of a poet. Her

vocalize has elicited comparisons to Aretha Franklin and Tori Amos, while her captivating delivery has been likened to a unseasoned Fair Raitt. Her songs themselves are laced with real pathos and humor, mixing influences from Motown to Billy Joel to Sarah McLachlan. Alexis Booth embodies exactly that which has been conspicuously missing from popular music in recent years: innate talent, and a sheer love and passion for the making of music. If this album is only her Begin-ning, one can hardly imagine to what heights she will rise in the years to come. HIGHLIGHTS * 12th Annual Billboard World Song Contest Lullaby and Is This Real - Honorable Mentions; * Downbeat Magazine, 21st Annual Music Awards Winner, Best Jazz Vocalist * Performed at NARAS-sponsored Grammy nomination party in New York, NY * Performing at SXSW in Austin, TX
