An eclectic mix of country and pop crossing over easily into country. 11 MP3 Songs COUNTRY: Country Pop, COUNTRY: Traditional Country Details: Country Artist J B Smith was born on July 15, 1971 to Doug and Nina Smith; he has four brothers and one sister. J.B.'s songs are about love, heartache, being lost and true happiness. As an artist he views himself as modest and sincere; kind of like Clint Black or Alan Jackson (JB has been compared to both.) The inspiration for J.B.'s songs is his wife, Heather. They have four children: Jayla, Selina, Logan and Josh. Here's JB in his own words: "I'm a family man who just wants my music to be heard by people and maybe touch a heart or two along the way." JB Smith's Crossroads CD is like no other; there are no fillers here!! Engineer Paul Hilton who did the master tracks for the CD commented on the eleventh and last song on the cd: "The Catcher (Catch You When You Fall) is a killer!!!" The cd has already garnered tons of kudos from DJs around the world and from such well known Producers as Buddy Killen, Jerry Cupit, Shane Wilder, and Neal James, just to name a few. JB Smith is on his way to the stardom his voice and talent deserve. Thank you so much for your support.
