Brutal, riotously fun and unreasonably technical epic metal. 9 MP3 Songs METAL: Black Metal, ROCK: Hard Rock Details: Brutal, riotously fun and unreasonably technical epic metal from one of Portland's finest bands ever. A nightmarish fun house of a record, violently careening through moods and parts, led by remarkable drum programming, lightning-quick guitar/bass work and sinister keyboards, all churning and frothing around the shredded vocals of Jonny. Even if the four members of the band stood in your bedroom and threw you from wall to wall (which they would never do), they couldn't make you feel more breathless, more adrenaline-sick, or more inspired than these amazing songs.
