Meet in Secret Garden is an inspired and eclectic collection from Cold Fairyland's lead singer and multi instrumentalist, Lin Di. 10 MP3 Songs in this album (41:26) ! Related styles: ELECTRONIC: Ambient, POP: Asian Pop People who are interested in Faye Wang should consider this download. Details: Before Miyadudu became Lindi, she was a child who whispered softly in the night, writing personal music in her own secret garden. This multi faceted girl, who for the last eight years has been the lead singer of Cold Fairyland, published two new age albums in cooperation with Liu XIng, has now gathered the scattered creations of the past eight years into a new collection in February 2009 as a gift to all children who have loved or lost love. In this special edition, Lindi handles everything from song writing to production. This is the pure little girl, not the rarified atmospheres of Cold Fairyland, no academic sophistication - it is lazy, lonely, mischievous, and melancholy - each point revealing another facet of the true Lindi. Inside there is 3AM, written for Lindis first kitten, BaiBai. Lumi Pumpuli written for Lindis tiny white kitten who died last year. And Perfect Ghost One Two - is a story of true love. It is said that there is someone for everyone, this is the legend. For every person that is born, another is created - created to be the born one's perfect love. This created perfect lover is forever bound by destiny to the one for whom he was created. When these two meet, it is as if they have known each other all their lives. It is the love of legend, of literature and song. They complete one another - they are soul mates. Should fate become capricious and the born one falls in love with another, the perfect one becomes a ghost - a perfect ghost. For as long as he is in his lover's thoughts, the Perfect Ghost shall live. As he fades from his lover's thoughts, the ghost grows more insubstantial. Should the lover forget him completely, then the ghost will die. Credits: Songwriter / arranger / performer/ singer: Miyadudu Recording / mixing: Miyadudu / Seppo M.
