

Mp3 Redd Lettaz - Christlike....seriously (remastered Version)

[DOWNLOAD HERE](#)

A vibrant, soulful, hip-hop mixture with a theme that's Christlike...seriously. 19 MP3 Songs HIP HOP/RAP: Hip Hop, URBAN/R&B: Soul Details: Forerunner artist for independent label Two-Seven Records, Redd Lettaz brings his mature production and lyrical skills to the table with Christlike...(Seriously). Lettaz (real name Courtney Kelly from Chicago, Illinois) wields a unique soul-laced, underground brand of hip-hop that aims to get at the heart of all listeners--young and mature, new-, old-, and non-believers--with the message of Christ, whose "words are written in red letters". Formerly known as battle-rapper Ten tha Childish, Lettaz uses these 19 tracks to announce to the world his arrival as a servant of God in the music industry...with ambitions to take over. His refreshingly creative trackmastering and light-hearted delivery combined with his genuine expression and biblical inspiration make the no-less-bangin' Christlike an instant candidate for the "hip-hop classic" category. But don't be fooled by the immense talent...while some tracks can make you move ("Say Wha???", "Like David"), some make you laugh (The "Holy Hip-Hop Remix Skits" among others) and some make you think ("Lost", "Luv"); the focus of all is to give God recognition as Lord of all creation and the only way to peace through salvation in His Son Christ Jesus ("Alwayz B Around", "Meet Me", "Lord Hav Mercy"). The standouts "Hallelujah" and album-titled "Christlike" highlight Lettaz's hunger to worship Christ exclusively and truthfully (John 4:24)...and complete his God-given mission ("I'll Go"), which is clear: "...to save anybody in earshot/ and speak the very truth in the form of this hip-hop..." (The Beginning of Lettaz Intro). Not lacking in its more introspective elements as well ("Change in Me", "Fall Short", "Nu Song") Christlike...(Seriously) nonetheless is a fun, vibrant, and artistically engaging ride that bobs heads, incites laughs, and invokes conviction.
