

Citizen And Self In Ancient Greece

[DOWNLOAD HERE](#)

This study looks to the ways the Greeks decided questions of justice. This study examines how the ancient Greeks decided questions of justice as a key to understanding the intersection of our moral and political lives. Combining contemporary political philosophy with historical, literary, and philosophical texts, it examines a series of remarkable individuals who performed 'scripts' of justice in early Iron Age, archaic, and classical Greece. From the earlier periods, these include Homer's Achilles and Odysseus as heroic individuals who are also prototypical citizens, and Solon the lawgiver, writing the scripts of statute law and the jury trial. In democratic Athens, the focus turns to dialogues between a citizen's moral autonomy and political obligation in Aeschylean tragedy, Pericles' citizenship paradigm, Antiphon's sophistic thought and forensic oratory, the political leadership of Alcibiades, and Socrates' moral individualism.
