Reviews for "Isms": ----- "A beautiful CD, very diverse, intelligent and refreshing. The music here moves from full on trance to ethnic chill out - I really like this one!" - DJ Shahar, one of the most influential DJ's and reviewers in Israel. "I really, really like it. I can see why BooM released Divinorum's material, it has a nice lateral, not knowing what is around the next corner style - in other words, proper trance! Some of the uses of melodies from other cultures is so spot on - especially the Indian melodies." - Editor of Peek magazine, one of Europe's biggest trance magazines. "Great Goa Trance CD. Its ethnic sound makes it so interesting, more human, so also more affordable for people who are not into trance music. I prefer it a lot over Talisman. Every goa / trance lover should buy it !" - Mahendra Tallur, France
