Folkish lyric songs, and instrumentals, edgy from a soundtrack about Bob Dylan 15 MP3 Songs FOLK: Folk Pop, FOLK: Modern Folk Details: This CD was made from songs written for the independent documentary feature Tangled Up In Bob (tangledupinbob.com). Referencing Bob Dylan's early days the songs are done simply with guitar, voice and piano. The film features Natalie Goldberg as she tries to discover what home, being from a place and Bob Dylan mean to her. She visits his birthplace where he grew up. The songs are mine and not meant to mirror Bob in any way except in a sense of inspiration and a search for home. The CD is filled out with some new songs I'd written which though not included in the film, mirror a similar energy. All the best, Donald Rubinstein
