ROCK: Noise, ROCK: Hard Rock Details: In a Sumptuous Brown Gravy (Reality Impaired Recordings)
(2004) is the long awaited follow up to Guaranteed Katch's 2000 opus "Steak Bomb". Recorded in Ohio
with knob turning superstar Poopy(of Sockeye fame). This release finds the boys in rare form as they
were a lot more sober for this recording than the last. Is cafeeine a drug? Guaranteed Katch pulled out all
the stops for this one. The songs range from disco to hardcore to samba to just about who knows what.
Its heavy , its zany , there's songs with bouzouki on them. This is the cd that your lousy collection has
been begging for. Buy it now you knit-wit.
