55 minutes of relaxing instrumental music composed according to "The Section Divine" and the Fibonacci numbers, by TOMMY KASA TOMMY LORD. 10 MP3 Songs NEW AGE: Meditation, NEW AGE: Healing  
Details: The well-known swedish Ph.D. Lars-Eric Unestahl: "Together with a research team I have showed that human functions and body processes can be described in "section divine terms" when we are in a state of balance and harmony. I therefore asked the two composers Tommy Kasa and Tommy Lord to create Section Divine Music, reflecting this proportion both in rhythm, form and content". In this album Section Divine and the Fibonacci numbers are represented in tempo, form (even subdivisions), rhythm, melody and chords, in various degrees. One piece of the music is shaped totally (the melody and chords) around only five notes, all taken from the Fibonacci numbers. We hope this album can help you to induce states of relaxation, calmness, balance and harmony.
