Gothic Industrial with touches of the dark side of Techno, born from the decay that is Detroit. 15 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Techno Details: Morfiouz - The ancient greek lord of dreams and nightmares. Decayed Metropolis - A once bold city knowing no bounds, now an abandoned wreckage, a victim of lies and betrayal, from outside as well as inner forces. The sound of Morfiouz is born from classic Industrial acts such as Skinny Puppy, The Tear Garden, Thrill Kill Kult, as well as the techno pistons that started in the town that gave birth to Morfiouz, Detroit. Decayed Metropolis is designed as a journey through a disturbed mind. It starts off, light, maybe a bit typical with "Welcome". Don't be fooled, its only to entice you, for as the tracks progress, so does the darkness increase, until the final "Goodnight". Touching on sex, the devil, angels, misfits, hell, confusion that is love / hate, nightmares, and insanity inbetween the first and last tracks. Starting off comfortable and end up feeling troubled, if not some-what disturbed. The journey is worth it...if you dare. If at the end of it all, you want more....there are 2 free previews from the forthcoming CD "Sine Anema", a more ambitious endeavor, at: besonic.com/morfiouz Look for "Sine Anema" here in the coming months. check out the reviews below
