Nelson's music appeals mostly to the adult contemporary pop/rock crowd, although his songs strike a chord with music lovers of all ages. His songwriting and production began with an idea to combine the aforementioned genres of music while staying true to his own character, thereby creating an original style that keeps pace

with the sounds of today. Nelson has been writing songs seriously for the last seven years and is currently CEO of the music company "Songfellowz" based out of San Jose, California.
