

Mp3 The Assembly - Paranoia Will Destroy Ya

Highly anticipated second EP from one of Chicago's "bands to watch" list. The Assembly dives deeper into electronica this time, with pulsing drum loops, darker guitars and haunting vocals. 5 MP3 Songs
POP: New Wave, ROCK: Modern Rock Details: Tom Lynch of New City Chicago writes: The Assembly celebrates the release of its second EP, "Paranoia Will Destroy Ya", a fine follow-up to its previous EP that finds the band diving further into its Interpolesque slickness. The guitars interweave and clang as there's some Brit-pop influence to be found here, but the real treat is the synths, played by frontman Dave Suhs brother Nathan, which create a space-like swirl that, while heard in live setting, clouds your head in a good way. The vocal delivery, haunting and echoed, matched with the hook-heavy songwriting, makes the band instantly accessible without sounding derivative (The Smiths are there, sure, but so is some heroin-chic). This is a band to watch.
