A catchy pop sound mixed with cheeky street smart lyrics and a tasty helping of attitude. Their music celebrates diversity and encourages the listener to let go of old ideas of sexual stereotypes and gender. At a recent show one reviewer noted if Eminem and The B52s had a baby....it would be THE TRIIM SHOW All coming from different musical and cultural backgrounds (Storm Is Scottish, Lone is French and Triim is from the USA) they have fun with sexuality, androgyny and pushing the hot pink envelope. People are so scared of letting go and expressing themselves,that's why we love the 80s music so much, It was a time were people were unique and were not afraid to stand out Storm proclaims. We dont have a team of stylists or a big PR machine behind us telling us what to say or who to be, we just wanna rock the party and inspire people to lighten up and go nuts!! purrs Hot MC Triim All we wanna do is have fun says Super suave Producer DJ Lone We are so bored of what's going on in music, there is no edge, no spice or humor With song titles like POP THE CHERRY, GAY BOY HOOKER and FINGERBANG They have tongues and tails wagging. Already they have performed showcases for major and indie labels and have been approached to appear in their own reality show, their buzz keeps getting louder and louder.. so are you ready? GET TRIIMED!!
