Video is the new wave of the internet-- everything is moving toward video. You already knew that didn't you? But did you know that studies have shown that video can produce 89 better results than static text? What this means for you is that you DON'T have to be a 'Super Ad-Copy Guru' to be successful on the web. You could have a headline, sub-headline, and body text less than half as good as your competitor, and still destroy them in lead capture and sales volume by simply implementing this new technology into your page. In other words, you can immediately engage your visitors in an 'experience' rather than just hoping your headline will capture their attention enough to continue reading your site-copy. Bring Your Lead Capture Popups to Life Quickly and Easily! If you've been conducting business online for awhile, you've probably noticed that standard sales pages and lead capture pages are not as effective as they were a couple of years ago. It takes a lot more to get people's ATTENTION these days, and they're tired of all the same old gimmicks. Pop-up windows were great attention-getters for awhile, but then they got abused like crazy and people started blocking them. There are some pop-ins that are essentially unblockable, but people have become blind to the current static pop-in technology. That's where the new Video Pop-In Genius! software comes into play. We've found that people will WATCH video pop-ins, AND they actually LIKE watching them. After all, most people would rather watch a video than read a long boring page of text. By using this new fluid technology to instantly engage your visitor in your offer, you are also subconsciously instilling the 'human' factor. In other words, your visitor automatically trusts you more because he or she SEES you - you are a real person that they can identify with and relate to. In nearly 100 of all cases, this human element will cause them to be more likely to buy from you or join your
