Details: One for the Road is an homage to the brave men and women across the globe who have fought their way through rain, snow, traffic, sleet, litter, wild animal attacks, heavy seas, pitch black darkness, blinding white light, sobriety, well timed insults, oppressive middle management, police harassment, whining significant others and thousands of other pit falls to make their way to their local pub, have a seat, order a pint and sing a song or two. Its not a statement of artistic originality, rather an effort to join the thousands of voices around the globe who can only express emotion while drinking heavily and singing off key. Grab a copy, down some whiskey (we use and endorse Powers and Jameson) and lift your voice to the heavens. Remember what Oscar Wilde said.... We may be laying in the gutter, but we are looking at the stars!
