Folk music with lots of edges, including country, bluegrass, and blues. 12 MP3 Songs FOLK: Modern Folk, COUNTRY: Country Folk Details: Good Enough is a band of brothers---real brothers!! Dan, Larry and John Modaff composed and recorded this CD, their fourth album since forming the trio in 1995, and their first with label Newbraugh Brothers Music, that powerhouse of eclecticism out of Berkeley Springs, WV. "Soft and hard edges" as one critic put it, but all of them "as fine to take in as the Dakota plains." Acoustic and electronic instruments are blended with rich harmonies and good stories. Great as driving music, or for "sitting home by the fire" on a Saturday. Wherever, whatever, whomever---the music is always Good Enough.
