This music is a revival of the Cabaret tradition, that existed in Berlin during the twenties of the last century. It's a mixture between many styles, a cross over: Chanson, Swing, Gospel, Ballads - with a stress on the texts. 16 MP3 Songs EASY LISTENING: Cabaret, JAZZ: Smooth Jazz Details: How wonderful that you found my music. I am a singer, songwriter and entertainer, based in Berlin. In my shows I try to reawaken the mood in the clubs of Berlin during roaring twenties - as wonderfully expressed in the musical "Cabaret". I do English songs and German chansons expressing my experiences in life, love and whatever else seems to be important for me and perhaps also for you. I started my career as a singer for musical songs. I loved this music but still there was something left, that it did not really reach or touch me. After an important experience in my life (of course it had to do with love...) I started to write my own music. And -whow- people loved it. They came and still come to my concerts to share my thoughts. This is a wonderful gift to see all those nice faces sitting in front of you to share the moment. I am thankful for that. I really appreciate if you'll take part and share a little time with me and my music. And if you like to, you are very welcome to tell me how you feel about it or just send a quick "Hello". Have a wonderful time!
