

Mp3 High On Stress - Moonlight Girls

[DOWNLOAD HERE](#)

Songs about broken relationships, small towns and the cracked glass of daily life. 12 MP3 Songs
COUNTRY: Country Rock, POP: California Pop Details: "I know what you're thinking, does the Twin Cities scene really need another melancholy country-tinged rock band? Well, in most cases I would agree with you and say no, but as long as new groups like High On Stress keep popping up out of the woodwork it's clear that the local well in this particular musical area is far from running dry. With local ace producer Jon Tranberry (Valet, Plastic Constellations), handling bass duties in the group it comes as little surprise that High On Stress' debut album, Moonlight Girls, sounds perfectly polished, but what makes it all worthwhile is that front man Nicholas Leet's alternately gritty and pretty songs live up to the production's high standards. High On Stress mark yet another welcome addition to the already burgeoning local alt. country scene." Rob van Alstyne PULSE of the Twin Cities, Volume 9 Issue 15 (July 13-19,2005) "High on Stress [plays] some really good Americana guitar stuff. You should check them out."
