She grew up across the Mersey River in a quiet town, Bromborough, close to the old Roman City of Chester. Jules started her singing career at age 16. She cut her teeth in the English Pub scene singing lead in a number of Original pop rock bands but quickly decided that she needed a change of scene! At 18, alone, she left her home town with 70 dollars in her pocket, traveled to Boston, Massachusetts where, after a brief stint with some Boston bands she decided to pursue her other passion...painting. Jules established herself as a successful Muralist and painter of contemporary canvases. Her mural work is sought after throughout New England suburban communities, and her canvases have become a favorite among the young urban trendsetters. (julescannie.net) Before long, Jules decided that she could not give up on her first love, music. A small demo project with Boston Singer/songwriter and Berklee College of Music faculty member, Thaddeus Hogarth (thaddeushogarth.com) led to a collaboration for a full length c.d. project, 'LOVE IS A VERY GOOD THING'. 'LOVE IS A VERY GOOD THING' was produced by Thaddeus and Jules in a little more than one year. The c.d. is a collection of five original songs and 5 covers. The covers were specifically chosen for their content and style rendering them compatible to the mood of the original material on the c.d. The c.d. features an all star cast of Boston musicians, Baron Browne on Bass, Joey Scrima on Drums, David Sparr on Keyboards and Thaddeus on Guitar, Fender Rhodes and Harmonica. Jules draws her content for her songs from her life experiences growing up in Liverpool, England, then Boston and love for her family and friends and desire to share her love of singing.
