Being among the top singers in her country of choice, Luxembourg, she has crossed many borders. She is known to a wide audience for her interpretations of POP, CHANSONS, MUSICAL, JAZZ and other styles. Now, with the release of her third album REASON FOR LIVING, she not only displays her talent as singer, but also as songwriter and lyricist. To me, the LYRICS and MESSAGES my songs contain are just as important, if not more important, than the music itself, says the artist. The sound that flows through the different musical styles which makes the album characteristic is the stunning guitar of Marty Townsend and the sound of Sebastian Matzs Leslie organ. Real strings give a magic touch to some of the songs. Also noteworthy are the bag pipes on "Too Late" played by Cyberpiper. Just like the title song of her second album "Sometimes" the single "How Can I Breath Without You" from REASON FOR LIVING made it straight into the top charts in Luxembourg.
