Details: Born in 1971 Donell Harris discovered his love and passion for music in the early 80's. " I believe it was about 1984 when i recorded a parody of a song that i liked and i would always listen to the local college radio where they would play local rap artists. When I moved to Paducah, KY and got into high school we would have battles in the hallways before classess. I've since then recorded 6 cd's 5 of which i'm not too proud of due to the fact that i was not glorifyng God with that talent. Now I'm currently working on cd #7 which is titled Altar Call. Since i've rededicated my life to Christ the music and the content is better in all." His 6th cd is called Greatness Of Deliverance or G.O.D..With songs like Victory, What You Don't Know, I Love Jesus, and one of my personal favorites Eternal Life, I'm very positive that cd #7 Altar Call will be an oustanding piece of work,that will leave a mark that can't be erased.
