Effortless finger-picked guitar with a haunting yet humble voice, and lyrics that weave you through other worlds, under skin, under ground.... 6 MP3 Songs FOLK: Modern Folk, FOLK: Gentle Details: Naturalist, Jon Young says that great musicians are healers, they are able to move energy with the storytellers mind. Mariee Sioux has a divine gift for such storytelling. She is a stunning poet who exercises great fluency with her truly loving and richly emotive voice. Her music seems to have emerged from a state of being wholly connected to her spiritual nervous system like whispers of long lost elders . She is 21 with an ancient soul singing stories of the earth and it's inhabitants with intense feeling and a sense of natural connection. It seems as though she weaves in and out of past lives letting them pour out through fingers and tongues. She sings of bodies from the inside out and things buried below like the bones of bird wings, organs, muscles, hearts, fossilized ferns, and looks at the world as though it's also a body with all the things underneath pumping, churning, and flowing as one.
