The four of us played our first concert together in January of 2003 and it has been an extremely exciting and musically rewarding musical quest ever since. As the band has explored a variety of material ranging from Irish traditional repertoire to covers of some of our favorite rock tunes, we have figured out how to Mithrilize it all to take our listeners on a musical adventure filled with equal parts energy, expression and fun! The selections on this CD include some that weve played from the bands beginnings (Lord of the Rings Set and Ashokan Farewell, a very frequent request by our fans) which have aged well like fine wines over time. However, some of our newest sets (Funky Polkas and Chicken Fingers in the Chapel ) give a different insight into our collective tangled and twisted creative process. As we have been performing frequently with orchestras over the past few years, we also wanted to provide our listeners a taste of that with string arrangements on Captain OKane, Ashokan Farewell and the American Set. We want to offer our sincere thanks to all of our Mithril friends and family for all of your fantastic support since the very beginnings of our journey. Enjoy!!!! Here's a more detailed track list, the CD Baby program didn't have enough room to list the contents of some of our medleys! 1. Funky Polka
