Textured, smooth, chocolatey blanket of soft velvet tones mixed with the heartbroken vixen hell-bent on revenge...all is not what it seems in this world.? 10 MP3 Songs POP: British Pop, ROCK: Modern Rock  
Details: The debut LP from Salty...from solo to band, the crossover adding an element far deeper than the original acoustic stripped back feel. Folk it isn't however, for those die hard acoustic lovers (although not ruled out completely)...the electric making a full appearance and featuring second only to the vocals.  
Honey, honey - the commercial single creeps in and introduces the album...Take your clothes off beautiful - a tongue in cheek number about bad pick up lines we've all been quoted from time to time. Wannabe pornstar - a true story about a guy who thought he was one (quite mistaken), Little time - the true stand out ballad, all heart...references to Crowded House in the organ solo. Just because, the full version of the EP track, Something about you (just in case you missed the first round) This is not another love song - we've all felt it at some time, the angry side surfaces briefly! U deserved it - is that a hint of wisdom? Step over your ego - smooth, smooth blues.
