Contemporary Christian high-energy praise music that is horn oriented and has a classic rock sound. 12 MP3 Songs GOSPEL: Contemporary Gospel Details: I have been writing, performing, and recording for about 30 years. Ten years ago, God gave me a message to use my musical gifts (that He had given to me) for His purpose rather than mine. I started going to church again and soon found myself playing in a contemporary Christian horn band at my church. The music in my heart came alive and I have continued to grow into a complete musician...finding myself playing for the right reasons. During the past year, I have put my experiences with God into music. The music I present to you is my witness. I hope you feel His Spirit while listening to this CD.
