Colliding noise, sound art rhythmic music, Project Soundwave is a collection of diverse artists, musicians composer from the US, Canada Europe exploring the very nature of sound - bringing their unique perspectives together into eclectic aural landsc 18 MP3 Songs ELECTRONIC: Soundscapes, ELECTRONIC: Experimental Details: PROJECT SOUNDWAVE invites artists, musicians and composers to explore the nature of sound - how we see and hear sound, how we create it, how it can be used, and how it affects us. PROJECT SOUNDWAVE investigates new territory in the creation and meaning of sound, experiments with textures and processes, and explores sound as language, experience, and human connection and interaction. With colliding works of noise, sound art and rhythmic music, the CD features a selection of artists (spoken word artists, performance artists, djs, musicians, sound artists, noise artists, and visual artists) performing their unique perspectives in sound and sound-making. PROJECT SOUNDWAVE asks us to open our minds to the possibilities of what sound can be, and ultimately inspiring us to listen beyond the surface, connect with one another, and find innovative ways for us to think, see, hear, communicate, understand and shape the soundscapes that surround us. PROJECT SOUNDWAVE is a not-for-profit project featuring the audio CD, web site (projectsoundwave.com) and live events produced by San Francisco-based art organization ME'D1.ATE NETWORK (me-di-ate.net). Proceeds benefit the production and programming of PROJECT SOUNDWAVE CD and Events, and organizations supporting the development of the creative sound arts and education.
