Product#2: 1 Minisite Template: You will get 1 Minisite Template with Private Label Rights! You will get the minisite template in 8 different flavors (this way, you actually get 8 minisites)! "How is Your Template Any Different from the Hundreds of Minisite Templates That Are Gathering Dust on My Hard Drive?" You have no doubt purchased dozens of minisite templates before. However, here is where my template differs from the rest: You DO NOT need Photoshop to edit this template (with the exceptions noted below). I hate the idea of anyone having to invest \$600+ in Photoshop just to edit some templates. Come on, we are not trying to be graphics pros here! That is why I have made it as easy as possible for you to edit the template without investing an arm and a leg in any image editing software. This template is primarily CSS-based, so you can use just about any HTML or text editor to edit it (I however recommend you use a CSS editor like Dreamweaver, TopStyle or Style Master to save time). You can change colors, fonts, anything you like, and use the same template on as many sites you wish! You don't need to learn CSS to use this template; however a little bit of HTML knowledge would come in handy. For the few images that are in .JPG formats, I have also included .PSD source files for all these images so you can modify them to your heart's content! Here are the Contents of the Graphics Pack: Minisite Flavor#1: The navigational menu of this minisite is on the left-hand-side. The menu is in the form of buttons. The header
