Module #2: Profitable DIY Content Creation Tactics The second Module is highly recommended for anyone who is just starting out but on a low budget, but have time to commit to learning this new mastery. This is also recommended for anyone who prefer to be in full control of everything they

produce and prioritize uniqueness. You Will Learn: How to be an Expert in your niche quickly and for under \$100 - if you don't consider yourself knowledgeable in anything or had been living life as a 'jack of all trades' this will now be the least of your concern. How to gain the confidence of attaining Expert Status - the SHOCKING but pleasantly SIMPLE truth about being an authority figure. When you find out how easy it is to get a strong following of fans and people who look up to you as the 'go to' guy, you might just want to knock your head against the wall! Module #3: Mass Information with Pre-Made Content If you want a jumpstart and skip niche marketing research then there's no easier way than what I show you in this particular Module. The vault of content which is the source of 15 of the books being produced in the world today, and created more modern Information Millionaires! Module #4: Leveraging On Other Peoples Content Easily, Ethically and Legally Designed for the lazy and busy guys, who says you have to necessarily write on your own? And who says you have to be a reporter on CNN to be the first to know? There's a gold mine of strategies in this Module and if you don't have the luxury of time, or don't consider yourself an insider in the loop in your niche, find out how to get other people to willingly do the content for you - more often free to low cost at the most!

You Will Learn: How To Be The First To Know - if you fancy running websites on trends, fashions, fads, and time sensitive news - like football scores, games, new TV series, and more - then find

out how you can get the timeliest content even if you're just the average person! REAL LIFE WEBSITES that are using this technique to get content for their own sites! They don't own the content but could publish the news as soon as it's hot off the press without having direct links to the media. Yet they're making easily tens of thousands of dollars a month, and are some of the most visited sites in their niche! How to get other people to willingly write for you - if your time is worth more than money than there's no better option than getting someone to write for you. After all, he's already more knowledgeable than you are! Ride on the fur coat of experts in your niche without paying a dime - only if you say the right words Aladdin did with his magic lamp, you will then enjoy having other experts pouring out the content for you without you being one in the process (but the expert status can just rub off on you)! Module #5: Putting Everything Together In this final Module, I recap all the 8 techniques I teach you in the previous Modules. I will be divulging over 6 totally unique ideas that can get you started right away on how to profit from your new found skill to generate content on the fly.
