

Mp3 Alvin Lloyd Masters - Summer Rain

[DOWNLOAD HERE](#)

My style is between classical and pop. New age sounding but more classically influenced. Beautiful lush melody creation is my primary goal when composing. 25 MP3 Songs NEW AGE: Neo-Classical, CLASSICAL: Piano solo Details: Summer Rain - produced, composed, and performed by Alvin Lloyd Masters has appealing lyrical melodies that are the composer's trademark style. With many years as a pianist, composer, producer, and instructor the composer feels that much of this work is some of his best. Suffering from severe tinnitus in 2003 the composer regained his ability to hear again near perfectly and began composing again at a maddening speed after purchase of some Sibelius software which is currently the composers greatest addiction. After around a two year time period the composer has written around 1000 musical works mainly for solo piano in his melodic classically influenced style. Very active as an instructor the composer is in his element when teaching and has produced many successful students and the ability to share his work with his patrons, friends, and students so they can play his songs also is one of his greatest passions. The instructor is a great supporter of the Royal Conservatory of Music and their examination program in the states and he and his students have received great support and encouragement from this well recognized and respected organization. In fact Mr. Masters has recieved Honors First Class with Distinction nine times in the examination program of the conservatory. Perhaps more impressive is the fact that he has prepared and entered over 500 candidates in these prestigious and demanding exams. Currently receiving airplay on Spirit Within Radio in Korea via Happy Days New Age Radio, and also in Cusage, Italy. The music is expected to reach thousands of listeners daily. Recently , the composer has been becoming more neo-romantic in his work after much study of the music of Chopin and teaching this to his pupils. It is not uncommon for the composer to complete several works in one day. Sheet music scores are available for much of his work as well as some other classical

composers at Sibelius Music- look him up on his homepage. " Strong material and good performances Alvin!" PAUL SPEERS - former Narada artist with David Lanz. " Your work is enchanting, fresh, and inspiring." JON SORENSON - Danish film composer. "Your music is so gorgeous !!!I love Summer Rain. You are truly talented." AMETHYSTE - New Age recording artist. "Alvin Lloyd Masters /Summer Rain - master composition in defiance of genre." Douglas McCann - new age composer and pianist. Known by the very select in the music industry only ,the composer has written songs anonymously that go to the very roots of American culture in not only new age but pop, rock, blues, and even reggae. Summer Rain is the fifth professional recording in the composer's career. He has also produced recordings in Berkely,(1996)published ,San Francisco, Calif.(1988) unreleased as well as Atlanta. Your support of this music is very appreciated.
