Their music is deeply personal and defines their faith and testimonies of the Savior's teachings as they sing of life experiences. Their harmonies are intricate and powerful, creating a unique sound. This 11 original song CD represents their experiences and commitment of inspiring others through their music. Tammy and Tracy are both mothers, each having four beautiful children and very supportive husbands. The inspiration for writing their songs usually flowed best when the laundry was piled to the ceiling, when each and every toy was on the floor, one child would be crying, another would be playing in the mud, and all the children were hungry! It was at those times that they felt the spirit direct their thoughts to a simple melody and powerful lyrics. Lyrics that empower youth, help others feel self worth, express love for Jesus Christ, comfort those that are distraught and give hope to those that feel lost. Each song is a "Mighty Miracle" - with its own story and inspiration that is easily identifiable to so many lives. One listener wrote, "Their music is a priceless way to bring back cherished memories of loved ones, family, friends, but most of all our Savior." Through life experiences, Tammy and Tracy have created music that will invite listeners to turn to Christ and reflect on eternal beliefs.
