Modernized Classics Performed by Branislaus with lovely apropos voice settings and great expressiveness on touch sensitive electronic keyboard. Bravo. 20 MP3 Songs in this album (77:57) !

Related styles: CLASSICAL: Keyboard Music, NEW AGE: Solo Instrumental People who are interested in Frdric Chopin Ludwig van Beethoven Erik Satie should consider this download. Details: Lasting Impressions actually represents my digital expressions of some of my favorite classical pieces. I chose synthesized voices, electrical tone colors if you will, to complement each particular composition. Then I performed them using a touch sensitive keyboard which allows for expressive playing. All tracks are single takes, with no overdubs or editing. In some pieces I triggered in percussion as I was playing. I hope you enjoy this new age angle on piano pieces. Sincerely,BRANISLAUS
