HIP HOP/RAP: Southern Style, HIP HOP/RAP: Hip Hop Details: Deadman Rashaun Williams started making music at the age of 13. A very good friend of his over heard him reading a poem out loud and he added some music to it. That's when one of the hottest mc's of all time was born. He got the name "Deadman" when he entered in a freestyle contest and he was challenged by thirty-six different mc's. He "murdered" them all. The host of the show penned him The Deadman, you know like the grim reaper the one who murders any mc that gets in his way. The name stuck and now the world will be treated to a MC with substance. He doesn't rap about the common stuff "bling bling, ice, how much paper he is stacking". He weaves stories around real events so that you can feel what he is talking about. That's why the first single off his nationwide release, Bloodmoon: Legend of the Deadman, "Bounce Wit It" is saying what you want to say. Hey DJ quit playin' the same old junk. After some obstacles as he got older he finally hooked up with Get Real Records the rest will be penned in history. He is known over the south as one of the most influential MC's to ever grace the stage. He has appeared in four huge concerts, consecutively, including, "Artist VS Aids", and "Black History Month Concert". He has performed with artists such as, Big Daddy Kane, Master Ace, MC Lyte, Pastor Troy, DJ Jazz, Raheem Da Dream, and Eric Sermon. Now, you see why The Deadman, is destine to make his mark worldwide. This is a warning... You may also download this music at all Major Digital Music Sites!!!
