A powerful musical smorgasbord of scripturerock including hard rock, techno, folk, lounge and blues. 13 MP3 Songs GOSPEL: Contemporary Gospel, FOLK: Power-folk Details: This is the second album after Sign of Jonas (also available on CDBaby). While the larger part is still solo acoustic this CD, Burning Bush, also includes a couple of electronica pieces, the EXCLUSIVE and elusive B-Side Prophets recording of Scribes and Pharisees (with the Anderson brothers on drum and bass and Malachi Palmer rippin' the leads). It's also got a cover (sort of) of the Byrds' Turn, turn, turn except that it is in spanish and sounds nothin' like the Byrds' Turn,turn, turn. Once again, it's all about the words of the Authorized King James Version. Nothing added. No side-commentary. No dogma. Believer and pagan (and "none-of-the-above") will find something that they dig and which will kick their little music lovin' hienies. So give it a Listen. Don't be shy. Use the Hi-band to get the best sound. I've been at this for a good ten years, trying to figure out what the hell I'm doing and . . . well I still don't know. BUT . . . if you like what you hear, please, please, please . . . let your homies and homettes know to check it out. I'd love to hear your thoughts on this whole deal. Any problems with your CD please let me know. It should sound great and feel good. Like that. Peace out. Nahm aka Brian Taraz
