Detroit power pop rock for the romantically challenged. Influences include Tom Petty, Marshall Crenshaw, Replacements, Matthew Sweet, the Pretenders, etc. Strong pop rock songwriter with a distinctive voice, guitar hooks and great melodies. 10 MP3 Songs POP: Power Pop, ROCK: Classic Rock Details: Somewhere back in the 70's, 12 years old and playing in his first rock band, Nick Piunti quickly realized the combination of electric guitars, crashing drums and screaming girls was about all anyone needed in this world. Now an adult with two screaming girls of his own, Nick's passion for creating three minute power pop classics shines through on his self titled release. Recorded with veteran producer-engineer Pete Bankert and featuring the white hot guitar work of Joey Gaydos, "Nick Piunti" marries the pop sensibilities of Nick's songs with a straight ahead rock and roll approach. The strength of the songs on "Nick Piunti" is what distinguishes this from so many independent releases. While covering familiar ground, Nick's unique voice brings a new perspective to the world of guitar pop rock.
