Details: Rob Baird wrote Techno Melodies originally as an experiment on the keyboard. He wanted something that you could hum to and enjoy rather than just a bunch a beats and rhythms. But soon he realized that this music is a great motivator when it comes to dayto-day things. As a result he finished his Volume One album so he could let others experience the fun of great melodic techno music when exercising, dancing, or just driving around in your car. This album is highly creative in its melodies and beats. It is high-energy to get you up and going. Rob wants to warn you though. If you listen to Techno Melodies too long you might find yourself dancing in your room, motivated to go for a run or to gym, or go on a long road trip. Techno Melodies is music that you can use practically. Dont just sit around and listen to music and waste your time. Use the music in your daily routine. So sit back, and try to relax. Listen to each track. Soak in the rich harmonies and bold expressions of Techno Melodies. Depending on the demand for Volume One will determine how soon Volume Two is released. So please listen and buy. Listen and buy. And lastly, listen and buy. Thank you. Rob Baird began learning the piano and the guitar over 13 years ago. He has played classical music at piano recitals and piano rock at open mic nights around town. He currently lives in Richmond, VA.
