Energetic, soulful, and sexy, which ranges from California Jazz to New York Blues, from Jazz Rock to Latin, from Asian to Jamaican and Pop music, never leaving you bored with repetition. 11 MP3 Songs
JAZZ: Smooth Jazz, EASY LISTENING: Mood Music Details: Like a Volcano bursting with energy in all directions, my music can't be contained to just one style. I feel music should be free like our Galaxy traveling through the Cosmos. Let me take you through my world of music, with a blend of my piano, synthesizer, acoustic and electric guitars, Horns and percussion arrangements. Each of my eleven songs is a scene from different parts of the World. This CD ranges from smooth California Jazz to New York Blues, from Jazz Rock to Latin, from Asian to Jamaican and Pop Music. Like two CD's in one, the first half has "upbeat rhythms" for adult parties, and the second half is "soothing and cultural". Good for relaxing, never leaving you bored with repetition. I need the freedom to express my art in its many forms. At times we just can't help where our Imagination will take us. The Spirit within us is: "BEYOND OUR CONTROL".
