New Age Retailer Music

Review The other day I was listening to Shoshannah's Deepheart Awakening album (Sanctuary) while driving through some of New York State's most magnificent scenery. It was an experience of pure joy and beauty for nature's artistry and Shoshannah's music complemented each other completely. Rich masterful, deeply expressive, Deepheart Awakening is a moving solo piano work by a gifted and inspired composer/pianist. Shoshannah takes us through the full range of human emotions... from delicate bird-winged strokes to chords of sweeping power and depth. Her piano is both powerful and sublime, passionate and reflective. It fills me to overflow. Described as a combination of Old World beauty and New Age vision, Deepheart Awakening blends Classical, modal Hebraic melodies, impressionistic harmonies, Jazz and Middle Eastern rhythms into such themes as hope, forgiveness, and compassion.

These compositions are focused highly visual, melodic and healing. Deepheart Awakening is not background music. It deserves our full listening attention. Of all the excellent selections on the album, most notable are "Deepheart Awakening", "Souls at Sinai", and particularly "Hope" - a deeply moving piece that beautifully expresses the yearning, struggle and ultimate triumph of the human spirit.

Shoshannah began composing at the age of six and hasn't stopped since. Now she offers us a special gift. In a world of dissonance, Shoshannah offers a musical sanctuary of Beauty, Harmony and Love.

"Deepheart Awakening" by Shoshannah CD Review by Kathy Parsons, Solo Piano Publications

Deepheart Awakening is Shoshannahs second solo piano release this year and her fourth album to date.

It is quite different from Soul Journey in that more of the music on this new CD is composed rather than improvised. Shoshannahs release, Gifts From Heaven, is her most popular so far, but that could easily change with Deepheart Awakening. Each composition portrays a specific Biblical or historical event, and much of the music has a cinematic sweep. A child prodigy who was classically-trained beginning at a very young age, Shoshannahs pianism is dazzling. Although her classical background is clear, her music is highly original with jazz influences and the occasional use of traditional Jewish themes and melodies

Some of the music on Deepheart Awakening is reinvented from Shoshannahs first CD, Sanctuary. The music is very powerful, often soothing, and sometimes joyous, and it stands completely on its own with or without knowledge (or even interest) in the historical events being depicted. One of the wonderful things about instrumental music is that the music is open to each individuals personal interpretation and can mean whatever he or she wants it to mean. The variety of playing styles on Deepheart makes it fascinating from beginning to end. A pianist with amazing skills and a top-notch piano can make pure listening magic, and Shoshannah does just that.Deepheart Awakening is a stunning listening experience and I highly recommend it!
