Disarmingly honest lyrics and performances wrapped in solid adult contemporary radio friendly piano based arrangements with rich vocals and lush harmonies. 11 MP3 Songs POP: Piano, ROCK: 80's Rock
Details: What a pleasure to finally find a performing songwriter whose music is obviously written, recorded, and performed from the heart and soul, rather than from the paint by numbers guidelines that so many aspiring writers use today. Singer/songwriter Tripp Boykin has created an incredible collection of 11 original songs that are an addictive blend of musical textures in the stylistic traditions of such artists as Phil Collins, Matchbox 20, Edwin McCain, and Bruce Hornsby. The music on Middleton Station is charged with disarmingly honest and sincere lyrics presented within passionate and soulful arrangements and performances. Boykin's piano/vocal based songs are welcomed listening to those of us who enjoy excellent pop-rock music and especially if you enjoy the pop-rock music of the late 80's and early 90's.
