Its an insidious disease that is crippling companies, destroying our economy, and crushing potential. Its infecting the very roots of business performance, and its spreading fast. It isnt the recession, market volatility, scandal, or greed. Its entitlement. And it may be killing your business. In myriad ways, entitlement has been cultivated for decades. As a result, too many employees today believe that they are entitled to a paycheck simply because they show up. Brad Hams has proven that we are not doomed to a path of entitlement and dependence. After more than 15 years working with hundreds of companies, he knows that the vast majority of employees addicted to entitlement actually want to engage, want to contribute, and feel much better about themselves when they are in an environment that requires them to do so. Now, with Ownership Thinking, Hams shares his strategy that will increase your companys productivity, employee retention, and profitability:

**The Right Education:** Teach employees the fundamentals of business and finance, how their company makes money, and how they add or take away value.

**The Right Measures:** Identify the organizations Key Performance Indicators and teach employees to forecast results in an environment of high visibility and accountability.

**The Right Incentives:** Create incentive plans that are self-funding and clearly align employees behavior to the organizations business and financial objectives. Your employees will learn to think and act like owners and will become active participants in the financial performance of the business. They will gain the self-esteem that is only possible through achievement and will reap rewards that are in alignment with the success of their organization.

Meanwhile, you will enjoy your role more, sleep better at night, and leave a legacy that is far more inspiring and significant than you dreamed possible.

**Praise for Ownership Thinking** You would have to read a dozen other books to even come close to Ownership Thinking a systematic and practical process for getting your employees to give that extra effort and brain power we know they possess.
