Dance,Electronic,World,Pop,Rock,Funk...an unusual mix of musical styles. 11 MP3 Songs POP: British Pop, ELECTRONIC: Dance Details: I started out as just a lyric writer,joined the International Songwriters Association at 17 years old.Many years and over 300 song lyrics later,after a few writing disappointments,I decided to try my own songs. The ISA made 5 professional demos for me,all in a Bon Jovi rock style using session musicians. I decided,as I liked many different styles of music,I wanted to make something more appealing to the masses. So,with the aid of a music mixing program at MH20.com,I started to make full compositions.First one,then 2..then 3..etc...friends seemed to like them.It was a unique sound with my voice and these different styles of music mixed together in cool sounds. Anyway,after 6 months of recording,remixing,finding a designer,a model and a printing shop,I finally released my first cd From 17 To The Web Of Dreams.Obtaining a barcode was far too costly,Amazon agreed to sell only if I had one.I decided to sell through my website and word of mouth.Since its release I have had much interest,but only 5 sales.Now I have sound samples on the website,I understand that buying a cd from someone no one has heard of..and also not hearing the songs,was risky!.I have already 12 new songs for the next cd,I hope to gain some sales of my own work and also maybe some writing work,lyrically,that is my main aim.If people like my cd then sure I am going to keep making it,because its fun,and thats what music is all about,after all..fun!.This cd is a laid back..funky..dancey..fun album that shows my lyrical side to the full and also some cool tunes!.I am available for any lyric writing projects too!Cover designer Dick Heere,covermodel,Monica.Songs from this album and new songs available to hear from ArtistLaunch.com.The album now available there at \$8.99 but without the 16 pg lyric booklet and picdisc you can buy at CdBaby,this is a special edition.CDsingles also available,write to asgood@totalise for details.
