 DEREK DOARN people.freenet.de/guitarlight/ Guitar, Keyboards, Bass, Drums, Producing, Mastering I
 was born in Germany in 1961. My father was Hungarian from Ballaton. Financing his studies he was
 playing piano, saxophone and guitar in different bands. My mother, born German sang successfully in
 several choir, who produced MC / LP. Aged eight, i started learning clarinet playing in a Country Music
 School With the age of thirteen years i was member of an Orchestra. This time I discovered to play guitar,
 took my fathers instrument and started to sound. I was sixteen years old, when i got member of my first
 band. The first Gig happened in a very narrow garage - it was great. From this time on, playing in different
 bands, more and more i'm realising my own style. In 1983 i successfully finished my studies in classic
 guitar, first visiting a music school, at least learning by a special teacher. Further i attended workshops
 and seminars. In 1986 i got the access at music school after examination. Caused by financial
 resources i had to give up my studies. From 1987 until 2000 i took the chance to teach guitar classes in

the Country Music School , workshops by Pat Metheny , Lee Ritenour Meanwhile i got access to several studio projects and was presenting guitar-plays at music mess in Frankfurt / Main. After 2000 i started composing. At least in 2001 i accomplished with playing keyboard. Experiences "on stage" as well as in studios have completed my guitar sound. The variability is one of the most important interest of my style. Finally the listener should get the feeling and identifying with my playing by taking relaxation. Guitarist H. Attila Jelinek plays a broad range of music ranging from instrumental guitar tracks to Pop tunes. On his 14 song CD "Guitar Light" he plays guitar, keyboards, bass, and drums, along with producing, and mastering the CD. Guitar Nine Magazine wrote -Jelinek features his guitar playing in some fashion on every cut, something you don't hear in a lot of contemporary, radio-styled tunes. A lot of the instrumental music would fit perfectly as soundtrack music, for film or television - it's got that evocative feel that would suit dramatic or suspenseful material well. Jelinek's also got a really smooth electric guitar style that listeners should find appealing. A child of the 60's, Jelinek comes from a musical family and at age eight began playing the clarinet. Within a couple of years he became a member of an orchestra, and quickly became competent with the guitar and at sixteen played his very first gig, in a small garage. Since then, he's studied classical guitar, attending workshops and seminars, teaching classes, and indulging in various musical projects. Since 2000 he has composed original music, including integrating the keyboard into his repertoire. Take a listen to his music for the diverse range of sounds, from dance, to downtempo, to all out classic guitar playing. xGuitarlight is a one man music project from Germany - all Guitar, Keyboards, Bass, Drums, Producing Mastering by Attila Jelinek New Artists For December-January, 2004 Uncovering Guitar Potential H. Attila Jelinek German Guitarist Goes For Versatility H. Attila Jelinek submitted his 15-song demo CD-R, and what strikes the listener immediately is how different each song is. From pop numbers with vocals to more guitar-oriented instrumental tracks, Jelinek is hoping to impress with his versatility and his guitar abilities. Many of the tracks feature modern beats courtesy of a drum machine, which give them a pop feel, but Jelinek features his guitar playing in some fashion on every cut - it's got that evocative feel that would suit dramatic or suspenseful material well. Jelinek's also got a really smooth electric guitar style that listeners should find appealing. People who are interested in Pink Floyd Led Zeppelin Foreigner should consider this download.
