An easy going blend of listening, relaxing music. Try it out if you are a massage therapist. My massage therapist said it would be a good choice. 12 MP3 Songs EASY LISTENING: Mood Music, NEW AGE: Solo Instrumental Details: I was born in a small town in northwest Minnesota, Hendrum, if you have heard of that, spending my youth there before going into the Army. It is located about 30 miles north of Moorhead Minnesota on Hiway 75. That small town, and that area are where I gained insight into the serenity, of living in the country. This a reflection of those times. Also, for those of you who have had a massage in the past, I was trying to create the atmosphere of relaxation that that invokes. My therapist said, after hearing the songs, that they will work well to create the massage atmosphere that many folks enjoy. If you are a therapist you may want to give the cd a try also, to see if your clients also enjoy that same atmosphere. The cd is designed for the quiet moments of life, those in which you contemplate, daydream, read, whatever you do, without any grating sounds in the background. Imagine yourself sitting by a stream and watererefall, and enjoy the sounds of nature. Relaxing, Relaxing, Relaxing. Why do'nt you save the jumping up and down, and running around for later, and relax your mind and soul now. Hope you enjoy the cd and I wish you many happy dreams.
