Adult Contemporary Christian Rock 15 MP3 Songs POP: Today's Top 40, ROCK: Classic Rock Details: With Justified's second CD "I Believe", their sound has solidified and their writing has gotten more personal. I Believe is a statement of faith, an acknowledgement of need, and a shout for joy that simply has to be heard. With the help of sound engineer Drex Archer at the controls, Justified has put together 14 songs that will leave you wanting to know more. As the inside jacket reads: I believe...what greater statement of faith is there? These initial words move us from lost to found, separated from God to set apart by God. These words invoke strong memories for each person who has allowed Christ to come into their heart. Life often seems like a subtle slow song that doesn't seem to fit anywhere, yet longing to be made whole. This is not unlike us when separated from our true purpose. I Believe is our fervent and passionate proclamation that Jesus Christ is alive, His Holy Spirit is in us, and that the dance of the Father, Son and Holy Spirit is amazingly made available to us. Our hope is that this music touches you, inspires you to consider who Christ is, and how He impacts you daily. This music is presented with the hope that you will consider your purpose for life and how it involves the One in whom we find real meaning. This music is presented not as a performance, but as an example of God's desire for us to create, dream, and believe. Do you believe? I Believe!
