Comforting piano with a healing touch. 12 MP3 Songs EASY LISTENING: Background Music, NEW AGE: Neo-Classical Show all album songs: The Calm Songs Details: When the stresses of life were overwhelming, pianist/composer, Kirk Dearman found solace at the piano and played his way to The Calm. Im amazed when I listen to this recording" says Kirk. "With ADD, I somehow managed to focus and produce a profound project while experiencing internal grief and external chaos." "I had to weave my way back to what I do best the piano." After a successful 25 yr. career as a singer/songwriter in Christian music, Kirk says, "I was forced to face Baby Boomer fallout: the reality that I was being replaced by 20-somethings!" He struggled with feelings of having nothing of value left to offer. So . . . Kirk did what came naturally . . . he sat down at the piano and made music, but this time it came differently. He just let it flow no stopping to write lyrics or re-write - Kirk just played his heart and The Calm was born. The amazing thing is that, presently, his studio is in the middle of their bonus room. His wife, Deby, was working at her computer in the left corner and 13 yr. old Elijah was doing schoolwork in the right corner. Kirk was perched in the center headphones and all and somehow tapped into his true calling. "The Calm" has caused quite a stir - selling like hotcakes from day one! Kirk has received many comments about peace filling the hearts of those who are totally stressed-out, folks breathing deeper and feeling calmer while listening to this music. "I somehow found the calm in the center of my own storm." Kirk's prayer is that "The Calm" soothes the soul of every listener and that the music brings healing and peace in the midst of chaotic times.
