The first thing he did ask his favorite living guitar player, Bob Brozman to produce the project. He said yes! Then, since Kurt loves the tuba, he made sure to get one of the best tuba player in America, Jim Parker. His friend Penny Nichols, a world class vocalist, offered to sing along. Then he called two more friends, Peter Burt and Ed Nardi, both very handy musicians and percussionists. He booked a recording studio in the country, moved in with the gang and made a wild record. He used a handful of new songs, a handful of old favorites and invited some kindergartners to sing along. The result is "Just Silly." Kurt hopes you'll like it.
