PLAYING TIME: 71:52 FORMAT: CD LABEL: theambientmind MSRP: \$11.99 VIRTUALITY merges the

worlds of techno-trance, ambient, new-age and cinematic rock in a contemporary fusion of

neo-progressive song structures. the thematic soundscapes of VIRTUALITY forge a dramatic and

atmospheric listening experience without genre-specific constraints while attaining a dynamic rarely heard

in todays corporate musical climate, running the gamut from dreamy and introspective musical interludes,

through haunting and ominous sound paintings into the realm of an intense rhythmic listening experience.

This CD is a departure from familiar stylistic and generic music that currently clogs the airwaves. Plus I

am an independent, non-corporate sponsored artist. VIRTUALITY delves into the somewhat unfamiliar

and uncharted terrain of ambient, neo-progressive cyber-rock. I do humbly request you listen with an

open mind, just don't leave some cerebrum on the floor, though. I don't want to be held responsible for

fractured limbs, dilapidated bodies, or misplaced organs (or pianos). I would also appreciate any and all

feedback. \*\* (Translation: 16-page full-color booklet and 72 minutes of music) \*\*
