Alan Haber,Host Of PURE POP RADIO...live365.com "THE HAPPY DOOR",Tim Anthony,Pop singer/songwriter Tim Anthony takes a break from his many duties and many other projects @ Jealousy Records and treats pop enthusiasts to an excellent 13-song disc with psuedo -60's styled and mainstream pop tunes.Tim has crafted a seamless album with plenty of catchy melodies and adds chiming guitars to many of these great tracks.This disc is very listener friendly.Very easy on the ears. Eric Sorensen,fufkin.com "People are gonna dig this one!Great job.Ed James Tim make a great pop-team." Jeremy Morris ,jamrecordings .com Tim Anthony "THE HAPPY DOOR",Terrific brand new solo release from the leader of those pop-juggernauts THE BRAMBLES.This release is actually an "A-LEVEL",collaboration with pop maestro Ed James.Mr.James contributes drums,vocals,keyboards and wonderful vocal harmonies throughout this one.This disc is a real pop gem!This album is brimming with tightly played,spunky hook-filled songs.Stongly recommended. koolkatmusik.com Tim Anthony,founding member of THE BRAMBLES a pop combo from central New York that sometimes worked with Gary Frenay Tommy Allen of THE FLASHCUBES,has released his second solo cd since stepping out with 1995's "Things That Once We're" On "THE HAPPY DOOR" like "THE BRAMBLES" this is a dual effort.Anthony works along side pop-extraordinaire talent Ed James and the work they do together brings to mind ,not surprisingly Ed James solo works,but the refrains of George Harrison(not often heard enough by popsters and found here.)The Raspberries,The Toms and The Rubinoos come into the playground here to play nicely.There must be something in the water,too as the spirit of The Flashcubes' style of late-70's skinny tie power pop i have to say is a strong influence and i don't think i'm imagining things either when i say that.For folks who remember the late 90's power pop band Time Bomb

Symphony(featuring Darren Robbins),"THE HAPPY DOOR" recalls their style as well.This is the kind of power pop that is engagingly upbeat,unfailingly committed to being purely pop,decidedly genuine and sincere.EXTREMELY HIGHLY RECOMMENDED Bruce Brodeen,notlameJANUARY 2006 I must admit ,i was blown away by Tim's talent,and that first song "MARYELLEN" from "THE HAPPY DOOR".Who the F#* knew he was that good...DAMN. BENNY MARDONES, bennymardones.net Rock icon from the 1981's world wide hit "INTO THE NIGHT" A top 10 hit 2 times ,in 1981 1989. Take a memorable melody,add sweet guitar.Throw in love-lorn lyrics.Shake until you can't get the songs out of your head.Thats "THE HAPPY DOOR" Mark Bialczak,THE POST-STANDARD STARS MAGAZINE Amongst the great reviews "THE HAPPY DOOR" has been getting,a magazine in Australia is doing a review as well. The magazine is called S.A. LIFE (SOUTH AUSTRALIA LIFE) the review will be out in March issue. Chris Clark is the reviewer... The great reviews keep coming... GLOBORECORDS.NET HAS NAMED TIM ANTHONY'S "THE HAPPY DOOR" THE #1 RELEASE OF THE YEAR 2005.BEATING OUT THE CLICK FIVE,NEIL YOUNG,PERNICE BROTHERS.PAUL WELLER AMONGST OTHER MAJOR LABEL ARTISTS...2006 IS GONNA BE GREAT! Spain To be honest Tim Anthony's "the happy door" blew me away upon first listening and hasn't let up yet.I was highly impressed with what i heard.For sure "HAPPY DOOR" is going to be high on my year end list.Congratulations for such an amazing collection of guitar pop songs.Of course ,your music will be featured with regular rotation on my weekly BANGBANG POP RADIO SHOW! All the best Carlos Quintino ,Portugal bangbangradioshow.blogspot.com Tim Anthony,"THE HAPPY DOOR" (Jealousy Records) This founding member of The Brambles returns with light but very polished pop that falls somewhere between The Gin Blossoms and The Rembrandts.Songs such as "Maryellen" and the Byrdsian or Tom Petty-like "Baby I'm Back".Anthony sounds as if he has a suitcase or vault filled with pop hooks judging by the infectious and airtight "Up To You" with it's summer feeling and handclaps.The Fact that MTV ,Emotional Pictures Granada Television inked him to a five-year deal to use his songs on MTV's "ROOMRAIDERS" and other upcoming shows only reinforces the fact that his tunes are finally getting the due that they are well overdue in getting."This Autumn" is more of a Bowie-esque sort of tune what with the melody carrying the brunt of the number while "No Words" is good but seems almost too ordinary.Maybe that says more to Anthony's consistency to maintaining a high level of well-crafted nuggets.Listening to "It Was You" is a great example of this as it starts off sappy but then gives the listener a good swift kick.Other tracks have some strings on them

,most notably the Harrison like "Disappear" that would have been better suited on recent XTC efforts.Nothing theatrical or over the top.Just quality pop. Jason Macneil popmatters.com TIM ANTHONY -THE HAPPY DOOR" This is an excellent power pop cd and certainly the best thing that Tim has ever released.As a real bonus,Ed James appears on this disc and his contributions are significant.What makes this a real winner is good production,good performance and good material."THE HAPPY DOOR" is certainly one of the best pop rock cd's to come out in 2005! Jeremy Morris,Audities list jamrecordings.com TIM ANTHONY-THE HAPPY DOOR I received an advance copy of this disc several months ago and now the cd has been officially released.I stand by my opinion of earlier comments.This is Tim's finest solo effort to date.Prime power pop from start to finish...with some jangly and chiming guitars to please any pseudo-60's enthusiasts like my self.
